- Completed a mini project on SCADA and PLC simulator titled “Street Light Control”.

Arduino Based Robotics (10/2016 - 10/2016)

## FINAL YEAR PROJECT

Hardware Development of Smart Garbage Management System (07/2019 - 03/2020)

- ▣ A growing population and economy, which means increased volumes of waste generated. This puts pressure on waste management facilities, which are already in short supply. It creates bad health conditions for people by spreading some deadly diseases, hence in this project we aim at solving all these problems by developing a Hardware for Smart garbage system using IOT.
